Disability Support

Who We Are

Family Based Care Tasmania (FBC) is a registered provider of support services under the National Disability Insurance Scheme.

We have over 30 years experience in providing disability support services to Tasmanian communities.

What is the NDIS?

The National Disability Insurance Scheme is a new way of funding support for people with a disability. It aims to maximise people's opportunities to participate in daily activities and to live as independently as possible.

The NDIS provides a flexible, 'whole-of-life' approach to help you pursue your goals. It also supports you to be socially active in your community and achieve your goals.

An individual support plan is developed with eligible participants to fund supports that are considered to be reasonable and necessary.

Are you eligible for the NDIS?

To be eligible for support from the NDIS you must:

- Have a significant and permanent disability. This can include a disability that is 'episodic', meaning that some days are more affected by it than others; and
- Be an Australian citizen and a permanent resident or a New Zealand citizen who holds a Protected Special Category Visa; and
- Be younger than 65.

How to Apply for the NDIS

You must make contact with the National Disability Insurance Agency (NDIA) on 1800 800 110.

Family Based Care's Team can assist you once your NDIS application has been approved.
